

## San Jacinto River Authority Latest News for August 2024

---

### NACWA Peak Performance Awards

SJRA's wastewater treatment facilities won National Association of Clean Water Agencies (NACWA) Peak Performance awards this year. Congratulations to our operators for all your hard work to go above and beyond in top quality processing.

### SJRA Reduces Wholesale Water Rates

SJRA delivers treated surface water from Lake Conroe to various wholesale customers that participate in a Montgomery County groundwater conservation program.

 <p><b>GROUNDWATER</b> Groundwater wells are designed to pump water from underground aquifers.</p>	 <p><b>SURFACE WATER</b> A surface water treatment facility treats raw surface water from a water supply reservoir.</p>	
<p><b>Groundwater Pumpage Fee</b> \$2.67 per 1,000 gallons of groundwater pumped by GRP participants.</p>	<p><b>Surface Water Fee</b> \$3.26 per 1,000 gallons of surface water delivered to GRP participants.</p>	<p><b>Import Fee</b> \$2.67 per 1,000 gallons of water imported by GRP participants</p>

SJRA is reducing both groundwater and surface water wholesale water rates for all customers in the SJRA Groundwater Reduction Plan beginning September 1. Read more [here](#).

## Be Weather Aware

During hurricane season, it is vital to be weather aware so you and your family can stay safe during the storm. One tool that can help you stay weather aware is [Know Your Watershed \(KYW\)](#). KYW is an interactive mapping tool that allows users to enter their address and find out which watershed they are located in. This information can help users know how the water flows downstream in their area.

## Divisions of SJRA: Flood Management

River authorities in Texas have historically not undertaken a large role in regional flood management. This is primarily due to the fact that only a few river authorities in Texas have taxing authority and/or a dedicated funding source to support such activities. Despite the fact that San Jacinto River Authority (SJRA) does not receive funding from the state legislature or from local taxes, in March 2018, Texas Governor Greg Abbott challenged SJRA to play a larger role in identifying regional solutions to flooding issues in the upper San Jacinto River Basin.

To request a tour of any operational facility, visit [SJRA's Tour Request Form](#) page on [sjra.net](http://sjra.net).

## Tell Us How We're Doing!

SJRA values your opinions and thoughts.

We would love to hear from you on how we are doing. Please submit questions, concerns, or other feedback here.

[Contact Us](#)

The San Jacinto River Authority (SJRA) receives no money from the state, nor does it collect any type of taxes.

SJRA's mission is to develop, conserve, and protect the water resources of the San Jacinto River basin. Covering all or part of seven counties, the organization's jurisdiction includes the entire San Jacinto River watershed, excluding Harris County. The SJRA is one of two dozen river authorities in the State of Texas, and like other river authorities, its primary purpose is to implement long-term, regional projects related to water supply and wastewater treatment.

If you would like to know more about SJRA, what we do, and how we work for the community, check out our website [www.sjra.net](http://www.sjra.net) and follow us on social media
